

Inline Batching Plant

This unit is suitable for a medium scale requirement and is available for 22, 30, 45, 60 and 120 mt³/hr capacities. Its design eliminates the need for a foundation for the unit. Minimum power requirement and automatic control—PLC and SCADA—are salient features of this series.

Specifications for 30 m ³ /hr and 60 m ³ /hr	
Vibrated batch capacity	500 l and 1000 l
Skip capacity	1050 kg and 2100 kg
Main motor	10 hp and 20 hp
Aggregate storage and feeding system	Inline bin
Storage bins	4 nos.
Gross storage capacity	26 m ³ and 36 m ³
Cycle control	Fully automatic with PLC system control and SCADA
Cement weighing bin capacity	100 KVA and 140 KVA
