

Mobile Batching Plant

This series offers units with four capacities viz. 22, 30, 45 m³/hr. It comes with a fully automatic PLC control system and digital weighing system to ensure correct mixture each time.

Specifications	
Type of mixer	Pan type
Vibrated batch capacity	22 m ³ /hr, 30m ³ /hr and 45 m ³ /hr
Storage bin	Cross bin 2 x 2, 4 nos.
Aggregate storage and feeding system	Cross bin with pneumatically controlled gates
Aggregate batching system	Independent load cell digital weighing system
Cycle control	Fully automatic with PLC controls
Admixture and water feeding system	Automatic digitally controlled admixture and water feeding system
Cement feeding system	Feeding screw conveyor and independent digital batching system
