

Stationary Batching Plant

This small scale stationary batching series provides superior operating efficiency through its automated water and admixture feeding system.

Specifications	12 m ³ /hr	15 m ³ /hr	20 m ³ /hr
Batch capacity	600 l	750 l	900 l
Prime mover	10 hp	15 hp	20 hp
Weighing system	Load cell based digital display batch controller	Load cell based digital display batch controller	Load cell based digital display batch controller
Water system	Automated digital water feeding system	Automated digital water feeding system	Automated digital water feeding system
Water tank capacity	170 l	250 l	280 l
Admixture feeding system	Automated digital admixture feeding system	Automated digital admixture feeding system	Automated digital admixture feeding system
Auto aggregate feeding system	Belt conveyors 3 nos.	Belt conveyors 3/4 nos.	Belt conveyors 3/4 nos.
Total hp installed	32.5 hp	42.5 hp	47.5 hp
Suggested generator capacity	50 KVA	63 KVA	82 KVA
