

## Diesel Engine Power Generators/Alternators

Specifications	
Rating	5 KVA — 250 KVA
Frequency	50 Hz
Voltage	230 V (1ph)/415 V (3ph)
Rated Speed	1500 rpm
Battery starting voltage	12 V DC
Noise level	Below 75 dB

### Features

1. Best in class fuel efficiency.
2. Lowest maintenance and trouble free working.
3. Suitable for stationary and mobile trolley mounting.
4. Acoustic canopy (optional).
5. High reliability and durability.
6. Micro-processor based genset controllers display a host of genset parameters (optional).

### Applications

1. Construction sites
2. Factory
3. Hotels
4. Buildings and hospitals
5. Industrial power
