

Electromechanical Works

Electrical Panels

Panels for medium and low voltage distribution and motor control panels (11KV/6.6KV/3.3KV/415KV, etc.) for all kinds of electrical switching/control and distribution services.

Pump Houses

1. Pumps
2. Electrical Substations/Switchyards
3. HT/LT Panels
4. VFD (Variable Frequency Drive) Panels
5. APFC Panels for power factor correction
6. Pump Manifold with Valves (DJ/NRV/BFV/Sluice Gate/Flow Meters)
7. Plant Automations and SCADA

Butterfly Valve

Dismantling Joints

Sluice Gates

Pump Sets

Common Manifold

Pipes and Bends
